How to Think like a Philosopher

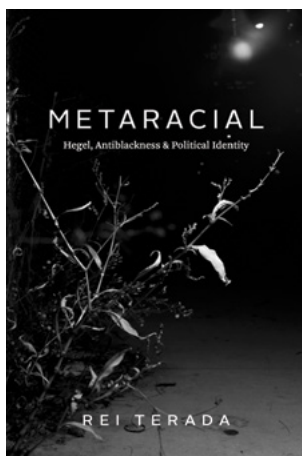

Twelve Key Principles for More Humane, Balanced, and Rational Thinking

Julian Baggini

“Baggini is that happy thing—a philosopher who recognizes that readers go glassy-eyed if presented with high-octane philosophical discourse. And yet [it] is in all our interests to consider crucial aspects of what it means to be human.”—*Observer*, on *Freedom Regained: The Possibility of Free Will*

Metaracial

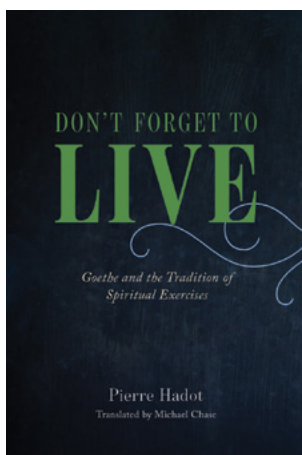

Hegel, Antiracism, and Political Identity

Rei Terada

“Behind the ‘subject slave,’ universally human by virtue of the dialectic, there is a second slave hiding, the Black slave. Deconstructing this trope in Hegel, Terada reveals the philosophical sources of an embarrassing paradox—antiracism—which continuously affects political radicalism. An elucidation which is demanding but also fascinating and hugely clarifying!”—Étienne Balibar, author of *Citizen Subject: Foundations for Philosophical Anthropology*

Don't Forget to Live

Goethe and the Tradition of Spiritual Exercises

Pierre Hadot

“This deeply personal work, by one of the greatest of French classical philosophers, featuring one of his major inspirations, the great German author and philosopher Goethe, excellently translated by Michael Chase, might just change your life. It is the culmination of Hadot’s long-term concern with ‘philosophy as a way of life,’ and constitutes a significant expansion and deepening of this theme.”

Rome as a Guide to the Good Life

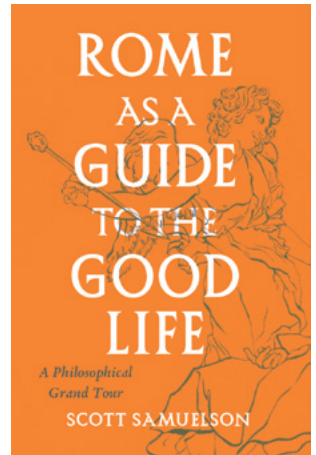

A Philosophical Grand Tour

Scott Samuelson

"*Rome as a Guide to the Good Life* immerses us in glorious works of art and architecture. But in Rome, every aspect of life, from Raphael to food to gesticulation, is an art. Rather than guiding us through the labyrinth of the city's streets, Samuelson guides us through the labyrinth of life, more daunting than any streetscape."—Ingrid D. The Complete Works

Handbook, Discourses, and Fragments

Epictetus

"This new translation of Epictetus by Waterfield is very welcome indeed. Both the translation and the notes help to make Epictetus more accessible than ever. Especially valuable is the introduction, which expertly situates Epictetus's thought within wider Stoic philosophy and touches on many of the key debates in recent scholarship."—John Sellars, author of *The Pocket Epicurean*

Madness, Language, Literature

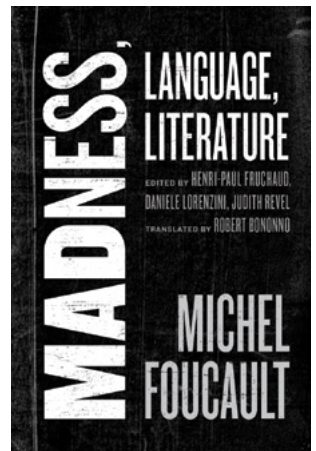

Michel Foucault

Perceiving an enigmatic relationship between madness, language, and literature, French philosopher Michel Foucault developed ideas during the 1960s that are less explicit in his later, more well-known writings. Collected here, these previously unpublished texts reveal a Foucault who undertakes an analysis of language and experience detached from their historical constraints.

Inventing Philosophy's Other

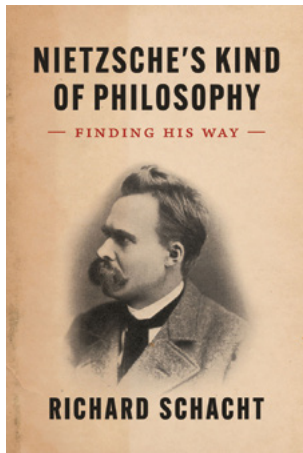

Phenomenology in America

Jonathan Strassfeld

"Strassfeld is one of the most talented young scholars writing about the history of academic thought. Ambitious and comprehensive, *Inventing Philosophy's Other* suggests that the triumph of analytic philosophy in America was neither preordained nor determined strictly on the basis of the quality of thought."—Bruce Kuklick, University of Pennsylvania

Nietzsche's Kind of Philosophy

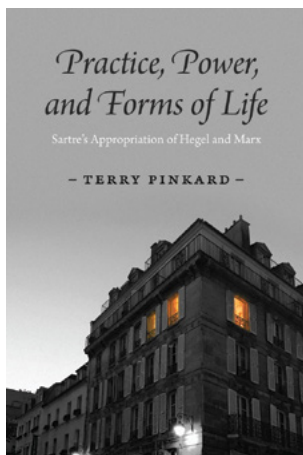

Finding His Way

Richard Schacht

"Schacht's latest book is one of a kind. With unparalleled insight, he offers a comprehensive, sharp-sighted, and scrupulously honest rendering of Nietzsche's main concerns, but above all an illuminating investigation into the primary, determining questions: What exactly is the purpose of philosophy, according to Nietzsche? How did he radically transform the discipline? And why did he have to? A priceless book which provides a lucid understanding of Nietzsche's specific stance and logic."—Patrick Wotling, University of Reims

Practice, Power, and Forms of Life

Sartre's Appropriation of Hegel and Marx

Terry Pinkard

"Pinkard has written a pathbreaking and compelling work that shows the importance of Sartre's extensive rethinking of his understanding of Hegel and Marx and the role of Heidegger's *Letter on Humanism* in his later thought. Key concepts such as subjectivity, agency, reciprocity, dialectic, materiality, and sociality are given original and philosophically rich interpretations, all presented with striking lucidity. *Practice, Power, and Forms of Life* is an extraordinary tour de force, both as interpretation and as philosophy, and it should lead to a major reassessment of the later Sartre."—Robert Pippin, University of Chicago

America's Philosopher

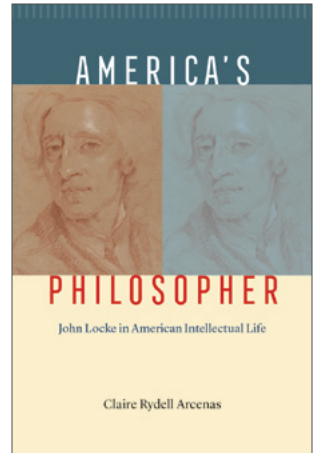

John Locke in American Intellectual Life

Claire Rydell Arcenas

"A wonderfully wide-ranging and insightful history of John Locke's changing reputation in America, moving from the early eighteenth century to the present with terrific scholarly command and authority. Locke's invention, more than a century after the fact, as the key political theorist of the American Revolution is only the most striking of its findings. This book will surprise and inform every reader invested in the history of American political culture. There is simply nothing comparable in the existing literature."

Rousseau's God

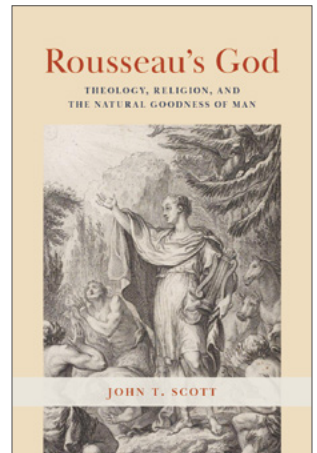

Theology, Religion, and the Natural Goodness of Man

John T. Scott

"*Rousseau's God* considers an important question in the manner it deserves: thoroughly. Scott succeeds in reconstructing the entire complex edifice of Rousseau's theology and relating it to the broader and even more complex context of Rousseau's thought as a whole. This is a remarkable achievement and a major contribution to understanding Rousseau."

When Spinoza Met Marx

Experiments in Nonhumanist Activity

Tracie Matysik

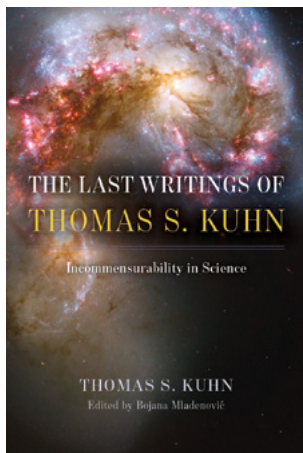

"Matysik has written a thoughtful, deeply researched, and elegantly structured intellectual history that fastens our attention on certain key chapters in the European reception of Spinoza's philosophy. *When Spinoza Met Marx* is an excellent book, and it deserves considerable attention from readers in modern European intellectual history and from anyone interested in the modern fortunes of Marxism and posthumanist social theory."

The Last Writings of Thomas S. Kuhn

Incommensurability in Science

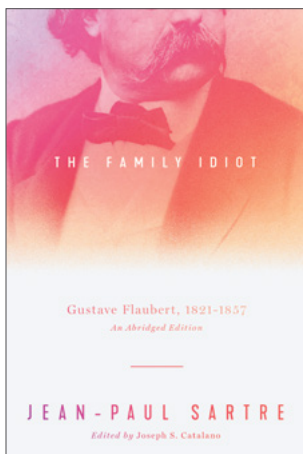

Thomas S. Kuhn

“Combining Kuhn’s unfinished last book, *The Plurality of Worlds*, with two related works not previously available in English, and a substantial and illuminating introduction by editor Bojana Mladenović, *The Last Writings of Thomas S. Kuhn* will be received as an absolute gem by philosophers of science, as well as by the wide swath of academics across the social sciences and humanities who revere Kuhn.”

The Family Idiot

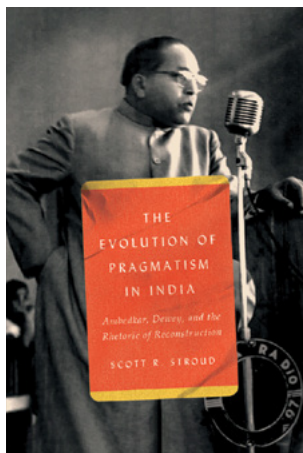

Gustave Flaubert, 1821-1857, An Abridged Edition

Jean-Paul Sartre

“The nihilism of the imaginary, as it is elaborately anatomized in *The Family Idiot*, is [not] a mere nineteenth-century curiosity or a local feature of some specifically French middle-class culture; nor is it a private obsession of Jean-Paul Sartre himself. Turning things into images, abolishing the real world, grasping the world as little more than a text or sign-system—this is notoriously the very logic of our own consumer society, the society of the image or the media event . . . [*The Family Idiot*] may well speak with terrifying immediacy [today].”—Fredric Jameson, on the unabridged edition, *New York Times*

The Evolution of Pragmatism in India

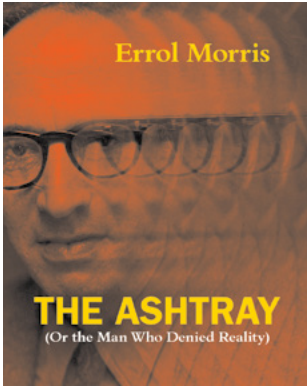

Ambedkar, Dewey, and the Rhetoric of Reconstruction

Scott R. Stroud

“Ambedkar was one of the greatest legal and political thinkers of the twentieth century, but his thought is barely known in the United States. With wide-ranging research and insightful philosophical probing, Stroud shows that Ambedkar, using Dewey’s works as a fulcrum, created a distinctive form of Buddhist pragmatism, committed to meliorist social dialogue, non-anger, and the flexible pursuit of social democracy. A major achievement.”—Martha C. Nussbaum, University of Chicago
