The Eighth
Mahler and the World in 1910
Stephen Johnson
 “[A] thrilling study of Gustav Mahler’s Symphony No. 8. . . . Johnson makes a strong case for its quality, musically and philosophically, in this magnificent, strongly argued and yet wonderfully subtle study. Whatever our final judgment may be on the Eighth, having read Johnson, we shall never listen to it in the same way again.”
—Guardian

“Johnson frames the symphony around the relationship between Mahler and his amorous wife, Alma, whom he feared losing. Much of Mahler’s music is death haunted. The Eighth stands out for its utter excess of love, the force beyond comprehension.”—Los Angeles Times

American Orchestras in the Nineteenth Century
Edited by John Spitzer
“To a remarkable degree, the ‘symphony orchestra’ is an American invention, distinct from the pit orchestras of Europe. And yet our knowledge of nineteenth-century American orchestras remains amazingly incomplete. Surely this volume will help build momentum toward an adequate understanding of a vital, even heroic chapter in American cultural history.”—Joseph Horowitz, author of Classical Music in America: A History

Hearing Beethoven
A Story of Musical Loss and Discovery
Robin Wallace
“Wallace’s striking volume is a detailed, erudite study of the effect of deafness on Beethoven’s music and character, but it is also a deeply personal account of Wallace’s late wife’s experience of deafness. This unlikely combination works beautifully and provides a convincing and moving probe into Beethoven’s essence. Throughout the entire book, one senses the author’s profound love and admiration for his lost wife and for Beethoven himself.”—Harvey Sachs, author of The Ninth: Beethoven and the World in 1824

Beethoven
A Political Artist in Revolutionary Times
William Kinderman
“Drawing on letters, sketchbooks, manuscripts, and abundant scholarship, concert pianist and music scholar Kinderman argues convincingly that Beethoven (1770-1827) was ‘far from indifferent’ to political events that roiled Europe during his lifetime. Offering minutely close exegeses of Beethoven’s works . . . Kinderman shows how the composer responded to the tensions and contradictions of the time.”—Kirkus

Mozart and the Mediation of Childhood
Adeline Mueller
“This book investigates how ‘Mozart,’ a mediated figure in the public imagination, is a useful lens through which to examine the changing ideas about childhood, both in the Enlightenment and into the nineteenth century. This is by far the most extensive study on the topic, and there is no doubt that this is distinctly original, well-researched work. Mueller has done a wonderful job of laying out the stakes of childhood in the late Enlightenment and beyond.”—Mary Hunter, Bowdoin College

The Search for Medieval Music in Africa and Germany, 1891–1961
Scholars, Singers, Missionaries
Anna Maria Busse Berger
“The Search for Medieval Music in Africa and Germany, 1891–1961 presents a largely unknown or underrated history of African-European interactions in music. Brilliantly researched and full of surprising new data from the history of African missions, it is a unique, necessary, and exhilarating contribution. Busse Berger has collected an immense amount of original scholarly material and presents it with stunning directness and immediacy. This book is a mind-blowing experience for anyone interested in global musical history.”—Reinhard Strohm, University of Oxford

An Unnatural Attitude
Phenomenology in Weimar Musical Thought
Benjamin Steege
“Between the hard-edged Platonism of musical form and the reduction of musical experience to mere psychological effect, an intricate and reflective style of musical thought emerged in Weimar Germany that was influenced by Edmund Husserl’s novel method of phenomenology. . . . [Steege] illuminates a complicated strain of European music theory embroiled in evolving debates about musical ontology, cultural difference, and social change.”—Michael Gallope, author of Deep Refrains: Music, Philosophy, and the Ineffable

Sounds Beyond
Arvo Pärt and the 1970s Soviet Underground
Kevin C. Karnes
“In this sensitive, richly detailed portrait of the 1970s Soviet contexts for Arvo Pärt’s early tintinnabuli music, Karnes provides a fascinating glimpse of a lost time and place. Covering an eclectic range of genres and styles, from progressive rock to liturgical music (and beyond), Karnes’s book fundamentally alters our hearing of Pärt’s compositions and vastly expands our understanding of the subcultures in which they first flourished.”—Peter J. Music’s Monisms
Disarticulating Modernism
Daniel Albright
With a Foreword by Alexander Rehding
“Music’s Monisms celebrates the power of music to transcend the oppositions of verbal language and, indeed, of everyday life. Albright presents brilliantly original readings of major works in twentieth-century music. He takes on some of the most imposing figures in music history with a wonderfully humane, and wonderfully personal, touch.”—Arman Schwartz, King’s College London

Nadia Boulanger and Her World
Edited by Jeanice Brooks
Bard Music Festival
An illuminating investigation into the interdisciplinary impact of the beloved modern classical composer.
“With a new spring in his step across already familiar ground, Grimley reinvigorates the life-and-works format by vividly placing Sibelius within the ever-shifting artistic and geopolitical landscape of his time, and that of existing scholarship. Grimley’s elegant fusion of ‘audible’ musical detail and warm human insight will enrich the academic and general reader alike.”

Sound Authorities
Scientific and Musical Knowledge in Nineteenth-Century Britain
Edward J. Gillin
“This book reveals the Victorians as you’ve never heard them before. Music, often associated in the nineteenth century with the emotional, spiritual, and aesthetic aspects of life, was simultaneously the subject of science. Edward Gillin engagingly traces the traffic between concert halls, shops, laboratories, and lecture theaters that made it possible to think about sound scientifically. In doing so, he adds a new sense to our understanding of science in the making of the modern world.”—Jim Secord, author of Visions of Science: Books and Readers at the Dawn of the Victorian Age

Tear Down the Walls
White Radicalism and Black Power in 1960s Rock
Patrick Burke
From the earliest days of rock and roll, white artists regularly achieved fame, wealth, and success that eluded the Black artists whose work had preceded and inspired them. This dynamic continued into the 1960s, even as the music and its fans grew to be more engaged with political issues regarding race. In Tear Down the Walls, Patrick Burke tells the story of white American and British rock musicians’ engagement with Black Power politics and African American music during the volatile years of 1968 and 1969, providing new insight into how popular music both reflects and informs our ideas about race.

Ornette Coleman
The Territory and the Adventure
Maria Golia
“Fittingly unconventional. . . . Ornette Coleman: The Territory and the Adventure is an atlas in prose, a guide to the territories of varied sorts—social, racial, aesthetic, economic, and even geographic—that Coleman came out of, traveled through, lived near, occupied, left behind, or transformed. . . . Golia covers a lot of territory in tight, direct language that illuminates Ornette Coleman’s life and work.”—New York Times Book Review

A Design History of the Electric Guitar
Paul Atkinson

“Atkinson strives to separate fact from myth in this well-researched, accessible exploration of the electric guitar. . . . Readers learn how the basic instrument is created, with fascinating highlights such as the integration of automobile engineering techniques and evocative new body shapes. Beautiful color photographs, contemporary advertisements, and examples of musicians displaying their own favorites add interest. . . . Atkinson’s rigorous scholarship and clear affection for the subject shine.”

Tracing the Grain Back to the Tree
Chris Gibson and Andrew Warren

“How old is a guitar? Did its life begin in the hands of the player, in the workshop or the factory, in the sourcing of its wood, or in the forests from which it came with their majestic, centuries-old trees? In an exhilarating, round-the-world journey, Gibson and Warren follow the trail of this most eloquent of instruments to its arboreal roots. Full of colorful characters, it’s a story that will keep you on edge of your seat.”—Tim Ingold, University of Aberdeen

Sing and Sing On
Sentinel Musicians and the Making of the Ethiopian American Diaspora
Kay Kaufman Shelemay

Sing and Sing On is the first study of the forced migration of musicians out of the Horn of Africa dating from the 1974 Ethiopian revolution. Musicians were among the first to depart the region, their lives shattered by revolutionary violence, curfews, and civil war. Reconstructing the memories of forced migration, Sing and Sing On traces the challenges musicians faced amidst revolutionary violence and the critical role they played in building communities abroad.

Ambient Sufism
Ritual Niches and the Social Work of Musical Form
Richard C. Jankowsky

“Stepping away from a focus on a single tradition, genre, or community, Jankowsky offers a fine-grained study of an entire complex field of sonic practice rooted in the neighborhoods and shrines of post-revolutionary Tunis. In sensitively tracing how diverse micro-communities touch shoulders around a common pool of musical and affective resources, Ambient Sufism is a signal contribution to the study of North African music, popular religious practice, and the social power of musical form.”

Sound and Affect
Voice, Music, World

Edited by Judith Lochhead, Eduardo Mendieta, and Stephen Decatur Smith

“Sound and Affect covers an astonishing range of topics, figures, and periods. One finds Plato and Ludacris, Proust and Phil Collins, Monk, Deleuze, and the Jesuit Marin Mersenne, and topics swing from desire to labor to the accented voice. Multidisciplinary in the richest sense, the book is a boon for sound studies, the philosophy of music, and musicology, and a primer for those who want to listen better and think more trenchantly about what they hear.”—John Lysaker, Emory University
